

# Time Report Project Week 4

## Group 2

Finished tasks during the week:

- Decode module
- Volume control
- Panning control

Ongoing tasks:

- Work on VGA module
- Work on Signal generation

Planned tasks for the coming week:

- Complete VGA module
- Complete Signal generator module

Individual worked hours:

Student	Worked last week	Worked so far	Tasks done this week
Kebba Jeng	10	25	Work done on VGA module. Work on interface for panning and volume control
Hannes Fröberg	17	32	Work on decode block, settings block. The code is complete and continued working on integration of decode.
Ghady Al Haddad	15	30	Work on volume and panning control for the settings block. The code is complete, however the integration of the settings with the decode is the challenging part.
Martin Bildhjerd	10	25	Further work on signal generator. Rethinking the sig-gen, new design needed. New design started for sig gen.
Aidin Jamshidi	10	25	Further work on GitLab. Work on VGA-module to import background. Further work to get animation to work. Worked on bringing all the parts together too.

How do this follow the time plan (in the project plan document)?

Everything is progressing according to schedule.
