Time Report Project Week 5
Group 2

Finished tasks during the week:

- Final report version 0.1

- Majority of the project

Ongoing tasks:

- Connecting panning and volume to output

Planned tasks for the coming week:

- Finalizing code

- Report version 1.0

- Project presentation ppt

Individual worked hours:

Student	Worked last week	Worked so far	Tasks done this week
Kebba Jeng	20	45	Completion of VGA module and connectig individual blocks together to form the system
Hannes Fröberg	15	47	Work in VGA and connecting modules. Completion of decode integration. Assisting on sig gen.
Ghady Al Haddad	15	45	Worked on Settings and Audio and figuring out the midi. The keyboard finally works, We can play a song. The volume also kinda works. What's left is to connect the panning and the volume to the output.
Martin Bildhjerd	19	45	Finishing touches on the signalgenerator. Some project documentation writing. Will start assisting on the last module before completion.
Aidin Jamshidi	19	44	GitLab work. Completion of VGA-module and "animation". A lot of work on bringing all the different modules together in one big project.

How do this follow the time plan (in the project plan document)?

Everything is progressing according to schedule.
